

SUMMARY

Software Developer skilled in Python, FastAPI, React, SQL, REST APIs, and AI-powered solutions. Experienced in building scalable full-stack applications, automation workflows, enterprise systems, and real-time applications with robust backend architecture.

WORK EXPERIENCE

System Engineer, Tata Consultancy Services

Aug 2023 - Present

- Developed and enhanced core modules for policy processing, premium payments, and policyholder data management.
- Integrated with various payment gateways for seamless online renewal and revival premium payments, with success/failure callbacks and status tracking.
- Provided L2 support by resolving issues and maintained system stability. Conducted unit and system integration testing in collaboration with business teams.

PROJECTS

Wiseweb-AI

[Demo](#)

Tech Stack: Python, FastAPI, PostgreSQL, React, TypeScript, Vite

- Developed WiseWeb-AI, an AI-powered website intelligence platform that crawls and analyzes websites for SEO, security, performance, accessibility, privacy, UX, and content issues.
- Implemented automated website health scoring and AI recommendations, enabling users to identify critical issues, prioritize improvements, and generate detailed analysis reports.

Spentrax

[Live](#)

Tech Stack: Python, FastAPI, SQLAlchemy, SQLite, React, Chart.js, JWT Auth

- Developed Spentrax, a full-stack expense management application with expense tracking, monthly budgets, recurring-expense detection, CSV import/export, and financial analytics.
- Implemented statistical spending analysis and AI-powered financial insights, including budget recommendations, spending summaries, and interactive dashboard visualizations.

Driver drowsiness detection system

[Live](#)

Tech Stack: Python, FastAPI, MediaPipe, OpenCV, WebSockets, React, Vite

- Implemented an automated system to detect driver drowsiness using computer vision and machine learning techniques.
- Presented a research paper titled “**Automated Driver Drowsiness Detection System**” at the ICSCDS 2023, IEEE-sponsored event.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Aug 2019 - May 2023

Prasad V. Potluri Siddhartha Institute Of Technology - CGPA : 8.38

TECHNICAL SKILLS

Programming languages	: Python, Java, JavaScript, TypeScript, SQL
Frameworks	: FastAPI, Django, React.js, Next.js, Node.js, Tailwind CSS
Databases & Tools	: PostgreSQL, MySQL, SQLite, Redis, Git, GitHub, Docker, Postman
Technologies	: REST APIs, JWT, AI/ML, Computer Vision, Data Visualization
